

# Mary Conley

## Education:

- Thinkful   
Full-Stack Engineering  
& Web Development
- Indiana University  
Graphic Design BFA  
TRANSFER STUDENT

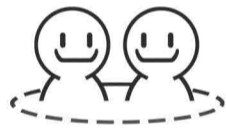

## Projects:

### ✕lingual

xlingual the global dictionary  
[xlingual-client.herokuapp.com](http://xlingual-client.herokuapp.com)

A full-stack user dictionary app with a mobile-first, responsive design. Intended to allow users the ability to exchange languages and redefine their vocabulary using colloquial terminology submitted by any xlingual user.

### The Friend Zone

The Friend Zone  
[the-friend-zone-app.herokuapp.com](http://the-friend-zone-app.herokuapp.com)

A new type of social media platform that encourages forming personality-focused friendships by design. Implements various methods of interaction including live chat, meetups/events, personality polls, and forums.

 SQL Learning Labs  
SQL Learning Labs  
[SQLLearningLabs.com](http://SQLLearningLabs.com)

A platform that allows users to test their SQL knowledge. Poses questions to users that are answered with SQL queries, monitoring which questions a given user is struggling with using a custom built spaced-repetition algorithm and dynamically altering future questions to ensure optimal learning outcomes.

"Full Stack Engineer  
& Magic Maker"

## Why you should pick me:

I am reliable, trustworthy, a lot of fun, and want to prove it. I care about the work I do. I have the work ethic and self-motivation to succeed, and if you give me the opportunity I'll never stop putting in the effort to be the best!
